Talk about fogging for mosquito's before movie night

Guest Speaker Roman Buchberger from the Lake County Sheriff's office talked about crime and crime prevention in our neighborhood.

He was last here 2 years ago.

There are 5 spikes a year when crime waves happen, Spring Break, Summer Break and Winter Break when Temps switch from Cold to Hot and Hot to Cold)

Keep outside lights on, it really helps.

There is a sensor for \$20 that you can put up that will trip when you cross the beam, put them up in places like your driveway.

Keep Cars Locked,

Lawns that look really good attract burglars because you might have good stuff.

You have 3 days to catch stolen stuff before a pawn store might that has it might sell it(10 days on Jewelry).

Database of stolen items is now being shared, Pawn Shops don't talk to each other. So Pawn stores in Mchenry sell a lot of stolen items from Lake County.

Be Alert for Phone Scams, remember Caller ID"s can be forged/faked, same goes for text msg's on cell phones.

Talked about having a robo call go out for the block party.

MEETING ADJOURNED AT 8:24
